

Peak of the Pendulum finalists in band competition

Why did the fire alarms go off during the Can Your School Rock competition on Saturday May 9<sup>th</sup>? Because Peak of the Pendulum was on FIRE!! That's right. Centennial's very own progressive metal band put on the show of a lifetime, and boy did they deliver!

The 6 competitors battling for the top 4 spots in the competition were fierce and were all extremely talented musicians as well as lyricists and composers. Bands like The Chair Warriors, Corrosion, Darius and the Clouds, and of course Peak of the Pendulum were all present at the event, and each and everyone one of them delivered a unique and memorable performance. Some were masters of the stage like Corrosion and Darius and the Clouds, while others were all about the theatrics like Peak of the Pendulum.

When they reached the top 8 in the competition they earned a 2 hour professional recording session. That track will be on a CYSR compilation Cd which will be available for download later this summer. Peak has already been recording many of their tracks, and they can be found on Facebook at : <http://www.facebook.com/pages/Peak-of-the-Pendulum/92665373929> and on Myspace at : <http://www.myspace.com/peakofthependulum>.

The final round of the "Can your school rock?" competition will be recorded on June 19th at Rosemere High School in Rosemere. Come rock with Peak-of-the-Pendulum!
