

Commission scolaire **Riverside**
Riverside School Board

Today, the government of Quebec introduced legislation that, if adopted, would have an impact on the diversity of our institutions. Recognizing the fact that we are a secular institution, RSB continues to value diversity as a richness and a strength for our culture and our community. Each and every one of our employees contribute to our great success and we intend to take any measure necessary to protect them. We are working hard at promoting diversity and at removing the stigmatization that comes from fearing one another. Unfortunately, the proposed legislation is negating these efforts.
