

Work-Oriented Training Path

Heritage Regional High School

The Work-Oriented Training Path gives students the opportunity to obtain practical training in the workplace while pursuing General Education with a Cycle One curriculum adapted to their needs. This path is intended for students who:

- Are at least 15 years of age on September 30th of the school year in which he/she begins the training;
- Have experienced significant difficulties in English and Mathematics.

A student whose competency report and Individualized Education Plan (IEP) shows that:

- The training path, among all the training paths offered at the Secondary level, is most likely to meet the student's interests, needs and abilities;
- The student meets the specific admission requirements for the training option.

| Pre-Work Training (PWT) | Training for a Semi-Skilled Trade (TSST) |
|---|--|
| <ul style="list-style-type: none">• Three-year program designed for students whose competency report at the end of Secondary Cycle One shows that they have not met the requirements of the Elementary End-of-Cycle 3 program evaluation for English and Mathematics.• This training helps students to progress at their own pace in a variety of subjects while preparing them to carry out their roles as adults, citizens and workers.• Students receive practical training within the school during the first year of the program (in a multifunctional lab), while the following two years involve workplace training carried out within the community.• Students receive a Pre-Work Training certificate upon completion. | <ul style="list-style-type: none">• One-year program intended for students who have met the requirements of the Elementary level End-of-Cycle 3 program evaluation in English and Mathematics, but who have not met the requirements of Secondary Cycle One.• Students complete the requirements of Secondary Cycle One programs in English, French and Mathematics, at the same time as developing competencies required to carry out a semi-skilled trade.• Students go out within the community to receive practical training in industry.• Students receive a Semi-skilled Trade Certificate, with the specific trade indicated. |

Bridges

For PWT students

- Students in the second year of PWT who do well on their workplace training may be considered for TST during the third year.

For TSST students

- Access to training leading to a Diploma of Vocational Studies (DVS) if the student holds a training certificate for a semiskilled trade and meets the special requirements for admission to a DVS
- Continuation of general education in Secondary Cycle Two
- Continuation of general education courses in Adult Education (to attain pre-requisites for greater options in DVS programs)
- Access the job market
