

The Saint-Lambert CLC, in collaboration with
Assante Wealth Management, present:

Your Child with Special Needs Making Their Future More Secure

Among the many challenges facing parents of children with special needs is planning for the time when they will no longer be around to act as the primary caregiver. In many cases, expenses will increase when care, management and guidance (previously provided by parents) must instead be obtained from a professional. Planning by parents can make all the difference in the life of the child with special needs, as well as the life of his or her siblings who may need to take on the role of primary caregiver.

While every family's situation is unique, the purpose of this **free** seminar is to provide a general overview of strategies parents and others can use to plan for their own futures and for those of family members with special needs.

Important topics to be addressed include:

- The Registered Disability Saving Plan (RDSP)
- Tax Planning for Special Needs and Disabilities
- Social Solidarity
- Regime of Protective Supervision
