1.0 Rationale

Riverside School Board believes that evaluation is a collaborative, communicative process that contributes to the development of competency and fosters lifelong learning.

The **Policy on Evaluation of Student Learning** provides the framework to promote ~~personal~~ success for all students and to allow students to become actively involved in the process of their own education. It specifies the regulations for promotion ~~from one cycle to another or between~~ throughout elementary and secondary school.

The contents of this policy are based on the regulations and principles articulated in the Education Act (Ed. Act), the Basic School Regulation (BSR), the **Policy on the Evaluation of Learning** (Ministry of Education, ~~Leisure and Sports~~ ~~MELS~~), the Annual Directives, and the Teachers' Collective Agreement in force at the time of its application. These official documents take precedence over the present policy.

All legal references to the Education Act were made as it stood on February 4, 2019. For an up-to-date version of this document, please refer to the following website: <http://legisquebec.gouv.qc.ca>.

2.0 Definition and Purpose

Evaluation is not an end in itself, but rather a process that supports student learning.

Evaluation is the process whereby a judgment is made on a student's

learning, that is, knowledge and competencies in each subject area, on

the basis of information gathered, analysed and interpreted, for the purpose of making pedagogical and, where appropriate, administrative decisions. (B.S.R., Section 28)

Students do not learn in order to be evaluated: they are evaluated so that they can learn more effectively. (MELS Ministry of Education Policy on the Evaluation of Learning, p.12)

[Evaluation] must allow all students to pursue their learning according to their individual characteristics, aptitudes, aspirations while maintaining without any lowering of educational standards. (Ibid Ministry of Education Policy on the Evaluation of Learning, p.14)

3.1 Orientation

Evaluation:

- supports learning by providing ongoing feedback to students, ~~both on a daily basis as well as at more strategic moments;~~
- acknowledges achievement through recognition of ~~individual competencies;~~ development;
- is considered an integral component of the learning process ~~rather than a distinct concept;~~
- is based on the teacher's professional judgment carried out in a collaborative manner;
- respects differences in learning whereby conditions ~~for evaluation~~ may be adapted for certain students;
- conforms with Ministry programs of study and is enhanced through understanding by stakeholders (students, teachers, administrators, parents/guardians) of the documents outlined in Section 1, paragraph 23;
- takes into account the respective responsibilities of all stakeholders and increases the focus on collaboration and ~~team-work~~ teamwork among those working with students;
- recognizes that students take an active role in all components of their learning process, including evaluating their learning, thereby increasing their understanding and accountability.

While behaviour may interfere with or support learning, it is not considered in the assessment of competency development unless it is directly connected to the demonstration of the competency. Behaviour unrelated to competency development is addressed through other venues than evaluation and reporting of competency.

4.1 Process of Evaluation

The process of evaluation of learning includes the following components:

- Planning – establishing the goal of evaluation, choosing the means, timing and methods;

- Information gathering and interpretation – records are kept, observations are

recorded over time, comparison is made on the student's learning with what is

expected;

- Judgment – relies on the analysis and synthesis of the information gathered;
- Decision/action –either pedagogical or administrative in nature.

Communication of evaluation is a responsibility shared by all partners. The process includes the participation of the students, parents, teachers, school administration, school board and the Ministry of Education, Recreation and Sports (MELS).

4.1 Responsibility of the Student

The student has the responsibility to become actively involved in the learning process, including participating in the setting of their learning goals. In addition, the student will monitor his/her their progress toward those goals; and evaluate their success in meeting the goals. The student participates in the process of reporting the results of the evaluation, through, for example, through student-led conferences.

4.2 Responsibility of the Parents/Guardian

The parent/guardian has the responsibility to be an active participant in the student's education and to work in collaboration with the school on establishing a home- school partnership. The parent/guardian continuously supports their child's progress in learning, reviews the communication of evaluation results with the student and participates in parent-teacher interviews. reviews the communication of evaluation results with the student and continuously supports his/her child's progress in learning.

4.3 Responsibility of the Teacher(s)

The teacher ensures that the learning and evaluation goals are aligned with the expectations of Ministry of Education programs.

The teacher is entitled (...) to select the means of evaluating the progress of the students so as to examine and assess continually and periodically the needs and achievement of competencies objectives and needs of every student entrusted to his/her care. (Ed. Act, section article 19).

The teacher supports learning by providing feedback on a regular basis as well as at strategic times, e.g. such as during and at the end of a unit of study, etc. The teacher provides opportunities for students to participate in the learning process, including evaluation.

The teacher respects differences in learning whereby conditions for evaluation may be adjusted for certain students and acknowledges achievement through recognition of individual competencies competency.

The teacher, working in collaboration with colleagues, uses professional judgment to interpret the results of assessment in an evaluation process, working in collaboration with the cycle team and other colleagues. The teacher reports these results, as required, to the student, parents/guardian, school administration and school board, using the accepted reporting tools provided.

4.4 Responsibility of the School Administration

The principal ensures collaboration within teacher teams for the evaluation of student learning and the reporting to parents.

The principal is responsible for approving, on the proposal of the teachers (...) the standards and procedures for the evaluation of student achievement, in particular, how parents are to be informed of the academic progress of their children, ~~the standards and procedures for the evaluation of student achievement~~ in keeping with the prescription of the ~~Basic School Regulation~~ and subject to examinations ~~which that~~ may be imposed by the ~~MELS~~ Minister or the school board. ~~(Ed. Act, article 231)~~ (Ed. Act, section ~~article~~ 96.15(4)). The

~~principal is responsible for approving the reporting tools used by the school.~~

~~The principal ensures collaboration within cycle teams in the evaluation of student learning and the reporting to parents. The principal, or delegate, reviews and approves each report card sent to parents and indicates his/her approval with a signature on the document.~~

~~The Principal approves the standards and procedures for the evaluation of student learning (Ed. Act, article 96.15). In the case of an elementary or secondary student, at ~~A t~~ the beginning of the school year, the principal shall ensure that (...) a summary of the standards and procedures for the evaluation of student learning, approved by the school principal, indicating in particular the nature of the main evaluations and the period during which they are scheduled for each subject, ~~are is~~ provided to the parents of each student or to the student if of full age. If during the year, significant adjustments are made (...) ~~to this evaluation information,~~ the principal will ensure that the~~

~~adjustments are also communicated to the parents or to the student~~ B.S.R. Section 20). These standards and procedures must also include an evaluation and reporting schedule indicating for which subjects and competencies a mark will be provided in each of the three terms, in keeping with the B.S.R. section 30.1 and the Annual Directives.

4.5 Responsibility of the School Board

The school board ensures that each school evaluates student achievement and administers the examinations imposed by the ~~MELS~~ Ministry of Education. *The school board may ~~also~~ impose internal examinations in the subjects ~~domains~~ it determines at the end of each cycle of the elementary level and at the end of the first cycle of the secondary level.* (Ed. Act, section 231)

4.7 Communicating Evaluation

Elementary education is organized into 3 cycles of 2 years each. Secondary education is organized into 2 cycles; the first covers 2 school years and the second, 3 school years. (B.S.R. Section 15)

Each school year is divided into 3 terms. The school provides one written communication and three report cards each year to the parents or, if the student is of full age, to the student. The dates of reporting to parents each year must correspond to the dates established by the Minister. The formal report card used for terms 1, 2 and 3, in Preschool (Kindergarten), Elementary and Secondary education, must be the report card and all associated procedures as are established prescribed by the Minister. (B.S.R. Sections 29 & 30)
