

*“Leadership is about making others better as a result of your presence and making sure the impact lasts in your absence.” Sheryl Sandberg*

Dear Sylvain,

In your life book, RSB will have 11 successful chapters reflected in it– The Number 11 is the hour master number which represents intuition, sensitivity, and awareness. What a perfect way to describe how we perceive you. All important and critical characteristics needed for a great leader.

You understand how important each and every student is – how their success results in RSB’s success. You have always been front and center in recognizing and congratulating all the efforts of our students and staff’s accomplishments ensuring they received the entire deserving accolades.; - Awareness! Sensitivity!

As we know, 11 years is a long time to go without obstacles and difficult tasks. Your leadership has shone through the cloudiest of days. These cloudy days did not stop your ability to steer everyone with confidence, determination, and encouragement. These last two years you have become a role model to many, not just to us here at Riverside but beyond. Your ability in decision making inspired our confidence and trust in you. Including your team in your decision making showed us your leadership skills.; - Intuition!

Your leadership has been outstanding because you do not simply lead but you also carry, assist, delegate, show empathy, kindness, and trust in your team. Your legacy as a leader will remain with us.

Therefore Sylvain, we the Council of Commissioners Tip Our Hat to you and wish you continued success in all of your future endeavors professionally as well as personally.

À bientôt!

*Dan Lamoureux and the Council of Commissioners*
